

PC650RPS

POLYCHEM[®]
PLASTIC STRAPPING SYSTEMS

SEMI-AUTOMATIC PALLET STRAPPER

***With
39"
Retractable
Bayonet***

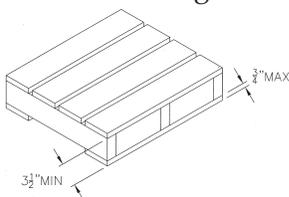

- ***Improve Consistency***
- ***Reduce Time***
- ***Eliminate Need for Hand Tools***

PC650RPS *Portable Semi-Automatic Pallet Strapper*

The PC650RPS has a Retractable Bayonet, that automatically extends through pallet void and dispenses the desired amount of strap. Bayonet automatically retracts when strapping cycle is complete. Retractable bayonet reduces floor space, improves maneuverability and reduces the chance of damage.

Bayonet Extended (39")

Bayonet Retracted (9")

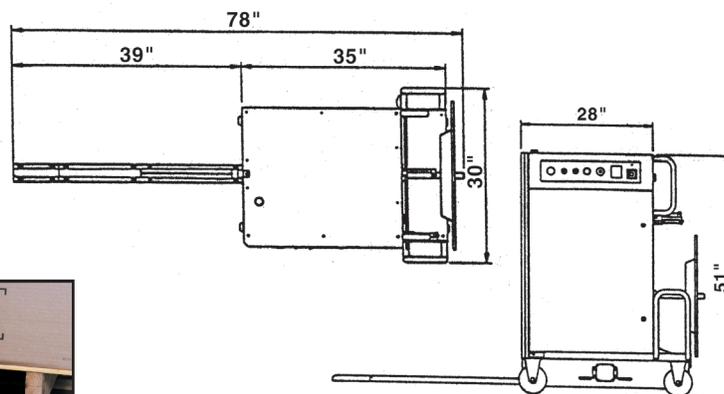

Bayonet automatically extends through pallet void and dispenses the desired amount of strap.

Bayonet automatically retracts when strapping cycle is complete.

Extra large 6" rubber casters provide the ultimate in maneuverability.

Dimensions

Easy to understand control panel with centralized start button. Insert the strap end into the machine and the machine does the rest.

Standard Features

- *Easy to understand control panel with centralized start button. Insert the strap into the machine and the machine does the rest*
- *Bayonet automatically extends through pallet void and dispenses the desired amount of the strap*
- *Bayonet automatically retracts when strapping cycle is complete*
- *Easy to load coil location with waist level strap threading*
- *Retractable bayonet reduces floor space, improves maneuverability and reduces the chance of damage*
- *Extra large 6" rubber casters provide the ultimate in maneuverability*

Specifications

Min. Load Height:	24"
Strapping Speed:	2.5 second/strap (60Hz)
Tension:	30-90 lbs.
Sealing Method:	Heating element
Strap Sizes:	3/8", 1/2", 5/8" polypropylene or polyester
Metric:	9, 12, 15.5mm polypropylene or polyester
Strap Thickness:	Up to .030"
Core Sizes:	16"x6" standard 8"x8" or 9"x8" optional
Voltage:	110 VAC 60 Hz
Weight:	650 lbs.

NOTE: All throughput estimations vary with actual size, package size, and conveyor speed.
