

 **Sealed Air**

Cellu-Cushion[®] Excell[™]

Expandable Thin Polyethylene Foam

Expand Your Expectations

**Conforming Foam that
Doubles in Width**

What is Cellu-Cushion® Excell™ Expandable Foam?

Cellu-Cushion® Excell™ expandable polyethylene foam is a closed cell foam that conforms around an object to provide soft cushioning support. Cellu-Cushion® Excell™ foam has a proprietary die-cut design that allows the material to expand and lock to twice its original width.

A Die-Cut Above

What makes Cellu-Cushion® Excell™ foam unique is the proprietary die-cut design. It not only allows the material to expand, but it is engineered to lock into place and stay expanded. This reliability provides the comfort of knowing your finished product will remain the way you intended.

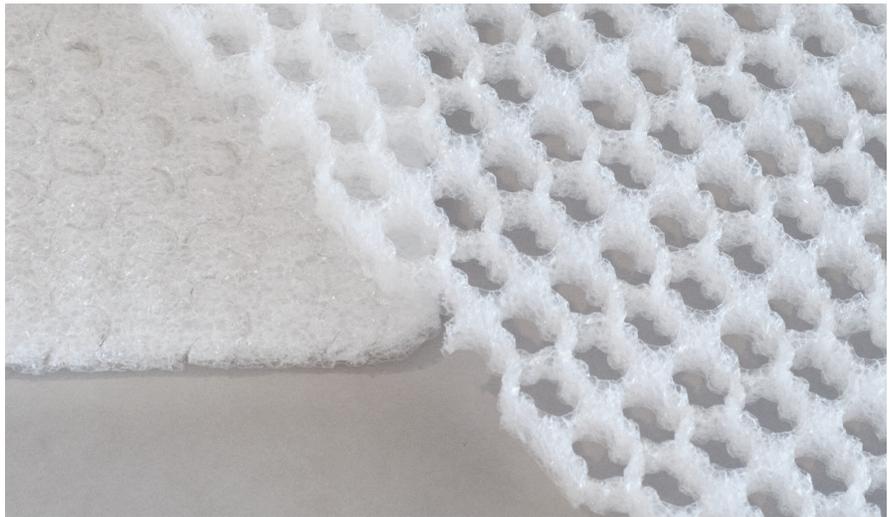

Addition by Subtraction

Cellu-Cushion® Excell™ foam reduces or eliminates many of the inconveniences typical of fabricated flexible foams:

- **Reduce Freight Cost**
Material ships unexpanded, requiring less space
- **Reduce Warehousing**
Material is expanded when needed, taking up less warehouse space
- **Recyclable**
Sealed Air's Closed-Loop Recycling program makes it easy to reclaim scrap material as a #4 LDPE

Where It Makes a Difference

Cellu-Cushion® Excell™ foam can be used as a cost-efficient option in most flexible foam environments requiring cushioning protection for fragile items such as glassware or electronics. The nature of the material makes it ideal for applications that require water drainage and airflow, such as crate liners for produce.

Cellu-Cushion® Excell™ foam expands to more than twice its original width.

Cellu-Cushion® Excell™ foam rollstock

Cellu-Cushion® Excell™ anti-static foam material

Cellu-Cushion® Excell™ Expandable Thin Polyethylene Foam

Cellu-Cushion® Excell™ foam is available as a rollstock material that expands to more than twice its original width. Please see below for product details.

Rollstock	Thickness × Length × Width 0.5" × 125' × 23" (unexpanded), 48" (expanded) 1" × 75' × 22.5" (unexpanded), 48" (expanded)
Color	Natural or Anti-Static (Pink)

Our Products Protect Your Products®

Sealed Air Polyethylene (PE) Foam Sustainability

We are committed to increase sustainability by enhancing the performance of our PE foam products with decreased use of natural resources in manufacturing by increasing recycled content. Our PE foams are classified as #4 low-density PE (LDPE) material and can be recycled in LDPE recycling systems, including our Closed Loop Recycling program. Learn more at recyclepefoam.com.
