

# EZ LOAD DISPENSER

**Loads in the upright position**

**New straptroller needs no adjustment for steel or plastic strap**

**Adjustable clamp allows damaged cores to be used**

- Vertical loading design
- Open discs prevent strap pull-downs and allow crushed or damage coils to be used
- Easy payout straptroller - No adjustment needed
- Wide frame - More stable, less tip-over
- Large tool tray accommodates battery tools
- Specifications - Oscillated wound steel and plastic strapping with 16" ID cores, face width 3" and 6"
