

New Double Coated Tape from IPG!

DCP800A2PW

8mil Polyester Acrylic Adhesive Double Coated Tape

8 mil double coated polyester is coated with an aggressive acrylic adhesive on two sides. The white 2 mil polyester liner promotes excellent processing and die cutting characteristics.

Features and benefits:

- Good overall thickness for filling gaps and rough surface applications
- White polyester liner limits tape elongation in processing for extrusions
- Excellent temperature performance range
- Stable bonding to Low Surface Energy (LSE) Plastics and EPDM materials

DCP800A2PW 8mil Polyester Acrylic Adhesive Double Coated Tape

Adhesive	Carrier	Adhesion to Steel (oz/in)	Thickness w/out Liner (mils)	Color
Solvent Acrylic	0.5 mil PET	125 (35 N/25mm)	7.9 (0.2 mm)	Clear

Item Number	Imperial Size	Metric Size	Rolls/Case
